

NICHBA

THE PRODUCT GUIDE

NICHBA's philosophy is an exercise in **simplicity**. Creating minimal yet functional products for the everyday. Based on traditional Danish design **values** and authentic local **craftsmanship**, NICHBA products are brought to life with passion and values hand in hand.

Rather than focusing on the trends of tomorrow, NICHBA is dedicated to rethinking and simplifying objects of today. Creating an effortless style for people's ever-changing daily rituals.

THE NICHBA AESTHETIC

Scandinavian simplicity and a minimalist design philosophy form the habitual yet considered style. That is uniquely NICHBA.

MATERIALS

POWDER COATING

Our certified powdercoating process ensures a high quality treatment of the steel – All our steel products are powdercoated. The powdercoating works as a protective layer that comes in a variety of colours and makes the products durable in both wet areas and for everyday use. Recycled powder coating

ALUMINUM

Aluminum 6000 series is a lightweight and very durable material. Ideal for both outside and inside use. The material is a preferred choice when it comes to bigger items or bigger projects where high quality and flexibility in weight modifications is needed to keep the shipping costs low on a large-scale shipment.

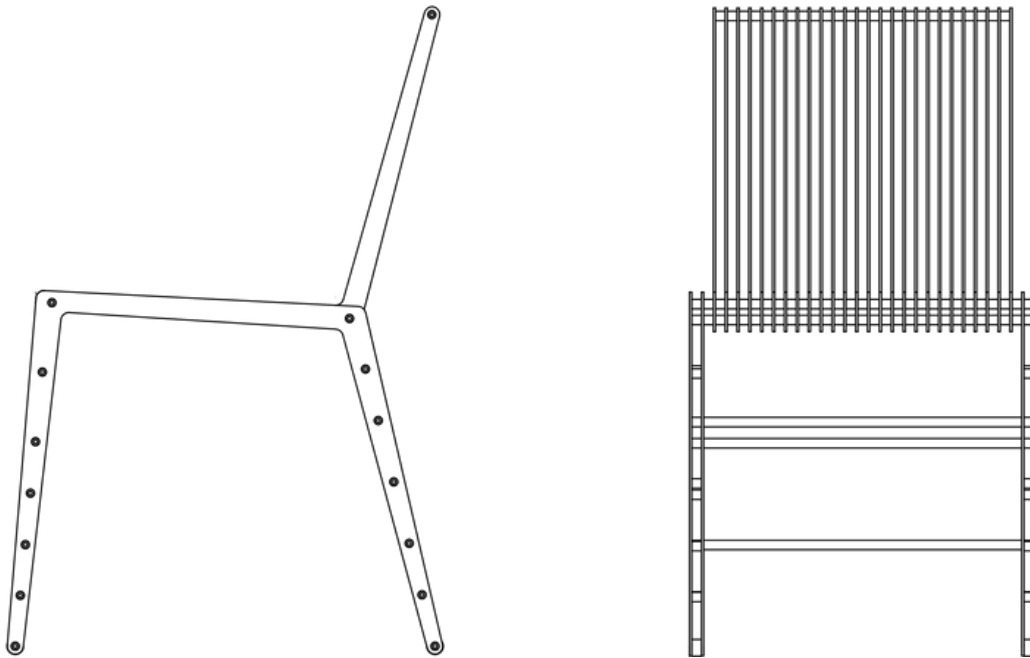

STEEL

Mild steel is a strong and convenient material – mild steel works well with our innovative wardrobe solution, which is based on magnetic clothes hangers and hooks.

STAINLESS STEEL

Stainless steel is extremely weatherproof. All products made for wet areas are made of stainless steel with a high quality powder coated surface.

NICHBA Chair - the perfect blend of industrial and minimalist design that is sure to complement any space. This versatile chair is suitable for both indoor and outdoor use, making it a great addition to any home, office, or patio.

Despite its lightweight appearance, the NICHBA Chair is constructed with strong and durable high-quality aluminum, ensuring its longevity and sturdiness. Its unique design also allows it to change in appearance depending on the viewing angle, making it a striking piece that will catch the eye of anyone who enters the room.

Produced in Denmark, the NICHBA Chair has been rigorously tested and certified to meet the EN 16139 L1 Standard, ensuring its quality and safety. Available in three colors - Black, Green, and Lacquered raw aluminum, you can choose the one that best suits your style and preference.

Don't compromise on style or functionality with the NICHBA Chair, the perfect choice for anyone looking for a versatile, high-quality, and visually stunning piece of furniture.
