Archive Lamp Series

Press release — Autumn 2023

As leaders in new and original Nordic design Northern are thrilled to share the Archive Table Lamp, their first collaboration with fellow Norwegians Studio Sløyd.

Minimal in appearance but with maximum presence, this unique and memorable lighting product began its life as a series of paper models created during Designers' Saturday, Oslo's largest and most important national design event.

Now thanks to their materials focussed approach, Herman and Mikkel have effortlessly replicated these initial folds and explorative curves in a striking steel.

Available in two sizes, with two colours in each, the Archive Lamp is perfect for a home, an office or a public space, and thanks to its arched shade it softly reflects an adjustable warm light downwards and outwards ensuring it as functional as it is elegant.

“We hope our lamp will become an object that the user cherishes and lives with for a long time.”

Established in 2019 and run by designers Herman Ødegaard and Mikkel Jøraandstad, Studio Sløyd is a Norwegian design name you need to know.

Working across the design landscape, from self-initiated exhibitions to collaborations with leading brands, their expressive and thoughtful objects are inspired by the 'sløyd' teaching system.

Taught as a subject in primary schools across Scandinavia, sløyd combines the learning and exploration of traditional woodwork or handicrafts, while developing a child's deep respect for quality materials and aesthetic values.

Cling Coffee Table

Press release — Autumn 2023

With its winning combination of classic craftsmanship and contemporary sociable style the Cling Coffee Table, from trained cabinet maker and designer Anton Björnsing, is the ideal addition to any modern interior.

Minimalistic in looks but multifunctional in purpose, this present-day take on a much-loved furniture favourite, can be used individually as well as combined with its sister coffee table to optimise space.

A well thought out design, the refined rounded top and contrasting edgy square base are both crafted from solid oak and oak veneer, coming in a smoked oak or light oiled oak finish. Available in two sizes, Cling coffee tables also come flat packed, giving them a lighter carbon footprint too.

“The main goal was to create a coffee table with a distinct expression, a product that pushes against the limits of convention while trying to find new possibilities in the design.”

Echo Series

Press release — Autumn 2023

Created to complement or contrast depending on your style, our Echo Series of blankets and cushions are as soft to the touch as they are striking to look at.

Taking their inspiration from the shifting hues that appear where the sky and the sea meet, Norwegian graphic artist Mariken Steen-Forgaard, has beautifully captured these often-fleeting everyday moments within the texture of these appealing home textiles.

Available in an assortment of primary tones that have been combined with a supporting neutral, the elegant Echo Throw Blanket and charming Echo Cushion are responsibly woven from high quality Merino and New Zealand wool.

Designed with both maximalists and minimalists in mind use either pieces alone or together, on a bed or sofa during the winter months or outdoors on warmer days to make the most of the sunshine.

“Rather than being led by fleeting trends this timeless series of textiles are made to be loved and lived with every day.”

Internationally renowned Norwegian graphic artist Mariken Steen-Forgaard has an academic background in communication design, so storytelling is a big part of her creative process.

Describing her work as a “curious exploration of new ideas”, whether working on a commission or a self-initiated project, Mariken likes to repurpose the materials she’s got to hand. Often pursuing abstract concepts, such as memory, imagination, and perception, the overall aim is to merge the mundane with aesthetics and philosophy.

Gem Series

Press release — Autumn 2023

Whether you need an extra seat for a welcome guest, a place to pop a tray of drinks, or simply somewhere to put your feet up, the new Gem Chair and Pouf are designed to be comfortable as well as sociable.

Created by the multiple award-winning German furniture designer Meike Harde to accompany the existing Gem sofa, these two charming additions share the same soft and sophisticated expression.

The Gem Chair, with its inviting deep seat and comforting arched backrest comes in two versions, with or without armrests, while the hard-working Gem Pouf also has a practical loop at the top so it can be easily moved around.

Crafted to the highest quality, all have oak legs, are filled with long-lasting high resilience foam filling, and come fully upholstered in a range of outstanding fabrics.

Lounging or entertaining, the Gem series allows you to tailor your seating arrangements to suit you and your space perfectly.

“Rather than using standard block shapes the large friendly curves and voluminous scale of the Gem series will bring happiness into the living room.”

Hifive Glass Storage

Press release — Autumn 2023

Featuring the same cool and charismatic qualities as the original Hifive Storage System, Norwegian designer Rudi Wulff has made his sought-after piece, smarter and more flexible than ever.

Providing practical storage without compromising on style, this latest addition now includes a set of finely fluted and tempered sliding glass doors. Tinted with bronze, this intriguing matt and semi-transparent new front allows viewers to get just a hint at what's inside without giving away too much.

Available in four spacious sizes and three wood finishes, configure the Hifive Glass Storage System to perfectly suit your space and pack your living room, bedroom or hallway personality as well as purpose.

“I want to create products to be used, touched and understood. Furniture pieces that trigger curiosity, are visually interesting and create a good feeling.”

Rudi Wulff is based in Oslo, where he received a master's degree from the Oslo School of Architecture and Design. After establishing his own studio, Rudi pioneered solutions for modern urban issues, designing new concepts for two-wheeled transportation and launching a new vision for traversing the city. In the past, Rudi has designed lighting, flexible electronics and static display systems, and today his repertoire includes furniture and household accessories.

All of Rudi's designs are underpinned by principles of Scandinavian efficiency, and his products are often characterised by functionality, clean lines and sleek surfaces. Rudi's designs for Northern include the modular storage system Hifive and the classic candleholder series Granny.

Into Vase

Press release — Autumn 2023

The Into Vase from renowned Norwegian design duo Morten & Jonas is a truly modern and multi-functional home accessory you won't want to live without.

Known for their experimental take on traditional Nordic style as well as their exciting contemporary use of colour, this smart and striking centrepiece transforms its use depending on your everyday needs.

Shaped from pressed steel and available in four material finishes and colours, Into can be used both as a vase for dramatically displaying your favourite flowers, or once their life is over, simply rotated on to its side to become a sophisticated tray perfect for fruits, jewellery or letters.

Easy to store, easy to use and even easier to look at, whichever way you choose to use it, Into is sure to become a talking point whatever the occasion.

“Into may at first appear quite simple in its design, but it is in fact an astonishing piece to be used and enjoyed every single day.”

Norwegian designers Morten Skjærpe Knarrum and Jonas Norheim are known eponymously as Morten & Jonas. They established their studio in Bergen, Norway after receiving their master's degrees from the Bergen Academy of Art and Design. The designers' cutting-edge furniture and lighting designs are sparked by curiosity and imagination, but characterised by irreverence and wit.

Morten & Jonas' point of departure was their ability to bring social agendas into design, even enlisting the help of incarcerated men and women to manufacture one of their early designs for Northern. Since then, Morten & Jonas have produced a range of celebrated designs, won several awards and had their work exhibited internationally. In Northern's collection, they give full expression to their combined talents, designing multifunctional furniture and discreet lighting while fulfilling their role as Design Directors for the brand.

Kin Table Lamp

Press release — Autumn 2023

Almost a decade in the making, the much-anticipated Kin Table Lamp series from leading Norwegian design duo Morten & Jonas is now ready to go out into the world.

A total head-turner, it takes its cues from the shape of collectable bobblehead figures, one of which featured in a film Jonas was watching and sparked his inspiration.

A contemporary and harmonious piece, the Kin Table Lamp confidently combines quality materials and contrasting finishes, with its oversized mouth-blown, matt opal glass shade sitting effortlessly on top of the softly rounded polished Emperador marble base.

Available in two bold sizes, and with a small hand dimmer neatly incorporated into the cable, the Kin Table Lamp allows you to soften the mood to suit the moment.

“Bringing a touch of luxury to the everyday, this is one piece you will definitely be passing on to the next generation.”

Spool Rug Series

Press release — Autumn 2023

Designed to make you feel instantly at home, Northern's Spool Rugs from Berlin-based Studio Terhedebrügge are cosy, comforting and hand crafted.

Comprising of a larger rectangular rug as well as a traditional runner, both pieces take their name from the spool on which every thread is wound, before being skilfully woven by professional Indian artisans.

Rather than using conventional wool, the leading design duo has chosen to create this collection entirely from recycled post-consumer plastic that has been spun into a soft and strong PET yarn.

With their tactile three-dimensional surface, which up close reveals a graphic pattern produced from a range of three complimentary shades, Spool Rugs are practical as well as pretty.

Suitable for use both inside and outdoors, this durable rug and runner are also stain resistant, quick drying and easy to maintain; making them the perfect addition to any space.

"We want our rugs to make a room not only aesthetically pleasing but the people within it feel comfortable when they come home."

Siblings Antonia and Silvia have been working together since the ages of 8 and 10, when they built their first sandcastle. They continue to share a passion for sandy beaches, and still join forces to work on creative projects. The two designers established a studio in Berlin, where they share a wide range of complementary design skills.

Antonia had already embarked on a career in graphic design, while Silvia had studied product design at the University of Arts in Berlin. Together, they have received a variety of nominations and prizes, including an award from the German Design Council. Today, products such as the Row and Spool rug series they designed for Northern are making Studio Terhedebrügge a name to remember.
