LEISURE®

GamFratesi x Sørensen Leather

LEISURE® is a new type of advanced leather designed for transitional spaces, featuring a resilient finish that withstands sunlight, water, and everyday wear. With LEISURE®, you can choose from a colour scheme inspired by nature. Danish-Italian duo GamFratesi curated the palette from a journey through Europe, spanning warm terracotta hues, ancient volcanic black, vibrant reds, cheerful yellows, and graceful shades of grey, beige, and brown.

This collection is especially suitable for hotels and restaurants seeking flexibility in their interior design, offering the possibility to move furniture seamlessly from indoors to outdoors – and back again. Explore the collection [here](#)

B CORP

Going Beyond Industry Standards

Sørensen Leather is the first in the industry to achieve B Corp™ certification, earning a B Impact score of 99.7. This achievement reflects years of dedicated work with certifications – today 70% of our collections are certified – alongside a Lifecycle Assessment (LCA) documenting our carbon footprint, responsible production practices, and supplier collaborations established through five decades in the industry.

About

Sørensen Leather is an eco-conscious, global brand with some of the most high-end, sought-after sustainable leather in the world. We continuously work with new concepts and are the exclusive source of leather for iconic designs found in museums, galleries and private collections around the globe. Armed with 50 years of expertise, our passion is to encourage people to explore the creative possibilities of leather beyond the typical or traditional.
